FixDiriloe

FRONTEND DEVELOPER

Indonesia · hello@fixdiriloe.dev · github.com/fixdiriloe · linkedin.com/in/fixdiriloe · x.com/fixdiriloe

PROFILE

Frontend developer specializing in modern Vue & Nuxt applications. I turn complex problems into clean, fast, and intuitive products — with strong attention to performance, type safety, and UX detail. Recent work includes a 16,000+ item collectibles database, real-time market analytics, and interactive data visualizations shipped to production.

CORE SKILLS

FRONTEND	Nuxt · Vue 3 · TypeScript · Tailwind CSS
BACKEND & DATA	Bun · Elysia · Drizzle ORM · Turso (libSQL) · Zod · JWT Auth
TOOLS & QA	Vercel · Vitest · HuggingFace · REST APIs · CI/CD

SELECTED PROJECTS

HIBIKISHOP PC — COMPLETED — kpop-tracker-six.vercel.app

Full-stack collectibles marketplace database with live price tracking and user collections.

- Built a 16,200+ item catalog with faceted search (group, member, type, store, price)
- Daily automated price-sync pipeline with 36-hour market-movers analytics
- Per-user collection binder with wishlist tracking, command palette, and bilingual ID/EN UI

Tech: Nuxt 4 · Vue 3 · Tailwind CSS · Turso · Vercel Cron

DuelDex — COMPLETED — dueldex-web.onrender.com

Card explorer and intelligent deck builder with format-legal recommendations.

- Smart deck generation with synergy scoring and archetype detection
- Full-text search with advanced filters (type, attribute, level, ATK/DEF)
- TCG banlist enforcement, JWT authentication, and per-user favorites

Tech: Nuxt 4 · Elysia · Bun · Turso · JWT

Family Tree — COMPLETED — family-tree-delta-peach.vercel.app

Genealogy platform for managing and visualizing family relationships across generations.

- Interactive D3-based tree visualization with family statistics dashboards
- Role-based access control (admin/editor) and trilingual support (ID, EN, Sunda)
- Guided 4-step creation wizard, birthday calendar, CSV export, dark mode

Tech: Nuxt 3 · Vue 3 · Drizzle ORM · Turso · Tailwind CSS
